## Quality POWER for Reliable BUSINESS

Constant Voltage Constant Frequency(CVCF) Power Supply is your best choice to deal with wide input voltage and fluctuating frequency

### Main technique parameter:

- Input voltage: 130~280V/265~495V
- Input frequency: 35~70Hz
- Output voltage: 220V/380V $\pm$ 0.5%
- Output frequency: 50Hz $\pm$ 0.01% or 60Hz $\pm$ 0.01%
- Isolation transformer output, safe and credible
- Auto-protection and alarm for output over voltage, over current, overheat, short circuit.
